69 St Mary's Road
Faversham
ME13 8EG

Insertion of replacement
front windows and door

Peter Jackson Architects
Harbour Offices
Whitstable
CT5 1AB

01227 770470

Outline proposals:

The proposal is for the replacement of front windows and front door with Ultimate Rose uPVC windows and composite front door.

Heritage Impact Assessment:

The site is within Faversham Conservation Area. For this reason, the replacement windows and the new front door have been chosen compatibly to be in harmony with the character of the area and to fit in within the street view. Therefore, the changes in the patterns have been minimised and the proposal is for upgrading the materials to increase the thermal efficiency and the acoustic performance of the openings whilst preserving the historic character of the area.
