Good morning,

Please see the attached photos of the trees at 15 Greenwich Close. It is difficult to get individual photos due to their Close proximity to each other but hopefully the images help with my application.

They have created a canopy that blocks light to other trees and plants and all I am asking is for sympathetic pruning to allow light penetration.

I have marked the photos with a colour key to help identify the trees.

Yellow - Holm Oak. Currently approx 13m, reduce by 2m to previous reduction points at 11m.

Red - Holm Oak. Currently approx 13m, reduce by 2m to previous reduction points at 11m.

Blue - Larger Beech. Currently approx 20m, reduce by 3m to 17m and previous reduction points.

White - Smaller Beech. Currently approx 14m, reduce by 2m to previous reduction points at 12m.

The other trees in the garden of 15 Greenwich Close do not require pruning.

If the photos are not clear or you require further information, please contact me at your convenience.

Kindest regards,

Andy Latham.
