If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

The proposed dormer extension is located on the rear of the property's roof, the extension does not exceed 40 cubic metres in additional roof space and is set back by more than 20 cm from the original eaves. The Velux windows do not project more than 150mm above the existing slope of the roof. For these reasons we believe the proposals accord with the limitations of permitted development rights.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
