

Gerr Park
Boughton Monchelsea

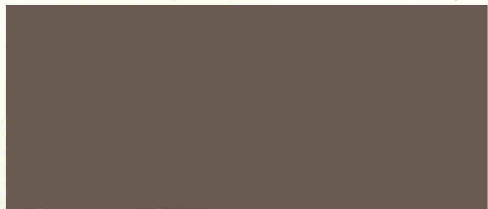

Sir,
I write concerning the matter of consideration of Council
to decline the retrospective award of Planning
Permission regarding the entrance gates to Gerr Park.

The purchase of the subject properties was based upon the
purchasers' assumption that this site would be surfaced by
entrance gates which would be surfaced during hours of
darkness. With the latest news it seems that a primary reason
for purchase has proved to be false.
I would earnestly request the Council to reconsider this decision
failing which a primary reason for purchase is no
longer relevant.

As a footnote this applies to to the state of the
community garded - another sales feature which has never
materialised.

With thanks,

sincerely,
