

STARFLEX

Flexible Flue Liner

RECOMMENDED SYSTEM FOR.....

Renovating an existing chimney with Starflex

TERMINALS

Push-fit Pot Hanger

- Easy to install
- No disturbance to existing pot
- Carries weight of Starflex liner
- No need for rivets, self tappers or sealant

CHIMNEY

Starflex 316L or 904L

- Extremely strong & robust
- Low resistance to gas flow
- High corrosion resistance
- Quick & simple to install
- Pre cut lengths available

ADAPTOR

Push-fit Flex Adaptor

- Easy, secure and robust installation
- Support plate makes for a simple and tidy connection to the closure plate

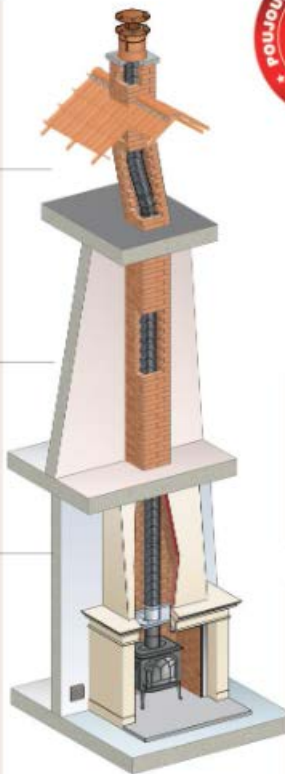

CONNECTING FLUE

Enamel Premium

- Best aesthetic appearance
- Unique push-fit joint means no fire cement or fittings required
- Quick and easy to install
- Very high resistance to scratching

Closure Plate

The closure plate is required to seal the chimney for cosmetic reasons, to stop soot falling on the stove, and to prevent heat wastage.
