

Roof Tile

[Metrotile Aquapan Metal Roofing Sheet 890mm x 1123mm - Grey Colour](#)

## **AQUAPAN's distinct profile and charcoal colourway can enhance a wide variety of small building projects, from our beloved toolsheds to the popular garden office.**

Universally metallic roofing tile sheets of 1 m<sup>2</sup> or 35 tiles can be instantly laid in just a single movement. Every Aquapan sheet contains 5 tiles in width and 7 tiles in height. The tiles can be overlapped with each other in height as well as in width without having to clip and/or cut. Fast, easy, simple and moreover no wastage, that is beneficial to our environment.

Installation is easy and quick. There is no need to cut, and there is all you need including barge boards, ridges, end caps and fixings.

Made from lightweight high-grade steel with Aluzinc® coating for incredible strength and weather protection.

The Metrotile Aquapan produces a more aesthetic end result for smaller roof areas such as CHALETS, PLAY HOUSES, TOOLSHEDS, GARDEN OFFICES, SUMMERHOUSES, STABLES, ANNEXES, ANIMAL SHELTERS, POOL HOUSES, GARAGES and WORKSHOPS.

### **How many Metrotile Aquapan Panels are needed for a roof...**

Simply measure your roof in metres, calculate the area (L x W = Area / m<sup>2</sup>) then divide the area of your roof by 0.91.

For example, if you have a roof that is 5 metres x 3 metres, you would use the following equation: 5 x 3 = 15, then 15 ÷ 0.91 = 16.48 (rounded up to 17 Aquapan Sheets)\*.

\*DISCLAIMER: This is just an estimated guide based on exact coverages advised by the manufacturer, and does not allow for wastage or cuts. The roofing industry standard for this is to allow an additional 5% to 10%, depending on the roof's complexity and the skill/experience of the person installing the product, therefore, the final decision on quantity is the responsibility of our customer or the person installing the product.

### **Metrotile Aquapan Technical Data:**

- **Overall Size:** W 890mm x L 1123mm (1.00m<sup>2</sup>)
  - **Cover Size:** W 790mm x L 1123mm (0.91m<sup>2</sup>)
  - **Number of Tiles in Width:** 5
  - **Number of Tiles in Height:** 7
  - **Weight:** 5.71KG
  - **Minimum Roof Pitch:** 10°
  - **Fixings:** Use Metrotile Self Drilling Screws (9 per sheet)
  - **Colour:** Grey
  - **Manufacturers Guarantee:** 15 Years
-
