Dear Rebecca

I confirm the following:

Change of use of land to residential – erection of wooden shed, open caravan store and front canopy (part retrospective).

I can confirm the existing building as shown in the following pictures:

The first picture shows the rear wall (door not in use), second picture shows the caravan store side wall, the third picture shows the garage side wall and the final picture shows the front of the shed.

Work required to finish final roof covering, sky-lights to fit, garage frame door to complete, external cladding to fit and the canopy to build and tile.

There are no trees on site applicable to the tree preservation order.

I have attached an updated declaration showing todays date and drawing showing as built at present.

I hope this is all in order.

Yours Sincerely

Ron Loveday
